Flipkart E-Commerce Web Application

Manual Testing Project Documentation

Project Objective:

This is a self-practice manual testing project prepared to demonstrate QA skills as a fresher. The project is based on publicly available Flipkart user flows and was not performed as an employee of Flipkart.

Sample Requirement Traceability Matrix:

Requirement Id	Requirement	Mapped Test cases
R001	User Registration	TC001-TC005
R002	User Login	TC006-TC010
R003	Product Search	TC011-TC015
R004	Product Details	TC016-TC020
R005	Shopping Cart	TC021-TC025
R006	Wishlist	TC026-TC030
R007	Checkout	TC031-TC035

R008	Payment	TC036-TC040
R009	Order Placement	TC041-TC045
R010	Order History	TC046-TC050
R011	User Profile	TC051-TC055
R012	Logout	TC056-TC060

Detailed Test Cases:

Module 1-User Registration:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC001	R001	Register with valid details	Open Registration page-Enter valid email, name, mobile number, password, then click Sign Up	Name: Peter, Email: peter@gmail.com, Mobile: 9876543221, Password:Test@123	User account should be created successfully and redirected to the Home/Login page.	High	Pass
TC002	R001	Register with an existing email	Enter a registered email and other valid details, then click Sign up	Existing email:peter@gmail.com	Error message “Email already exists” should be displayed.	High	Pass
TC003	R001	Register with invalid email format	Enter invalid email, then click Sign up	peter@gmail.com	Validation message “Enter a valid email address” should be displayed.	Medium	Pass

TC004	R001	Register with empty mandatory fields	Leave all mandatory fields blank, then Click Sign Up	Blank	Required field validation messages should be displayed for all mandatory fields	High	Pass
TC005	R001	Register with weak password.	Enter a password that doesn't meet the password policy, then click sign up.	Password:12345	Validation message indicating password requirements should be displayed.	Medium	Pass

Module 2-User Login:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC006	R002	Login with valid credentials	Enter valid email & password, then click login	Valid email, valid password	User should login successfully and navigate to Home page	High	Pass
TC007	R002	Login with invalid password	Enter valid email & invalid password, then click login	Valid email, invalid password	Error message should be displayed	High	Pass
TC008	R002	Login with invalid email	Enter invalid email & valid password, then click login	Invalid Email, valid password.	Error message should be displayed	High	Pass
TC009	R002	Login with empty fields	Leave email & password blank, then click login	Blank	Mandatory field validation messages should appear	High	Pass
TC010	R002	Forgot password	Click "Forgot Password" and enter registered email	Registered Email	Password reset link should be sent	High	Pass

Module 3-Product Search:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC011	R003	Search valid products	Enter product name and search	iPhone 15	Relevant products should be displayed	High	Pass
TC012	R003	Search with invalid product	Search unavailable product	XYZ123	Error message “No products found” should be displayed.	Medium	Pass
TC013	R003	Search with partial keyword	Search using partial text	iPh	Matching products should be displayed	Medium	Pass
TC014	R003	Apply search filter	Search product and apply brand filter	Samsung	Filtered products should be displayed.	Medium	Pass
TC015	R003	Enter special characters	Enter special characters	@#$%^	Validation or no results should be displayed.	Low	Pass

Module 4-Product Details:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC016	R004	Verify product details page	Search for a product, then click on the product	iPhone 15	Product details page should open with correct product information	High	Pass
TC017	R004	Verify product images	Open product details page, then click product images	Any product	Images should load properly and change when images are selected	Medium	Pass

TC018	R004	Verify product information	Open product details page	Any Product	Product name, price, description, specifications, ratings and availability should be displayed correctly	High	Pass
TC019	R004	Apply search filter	Open details page, then click Add to cart	Any In-stock product	Product should be added to the shopping cart successfully.	High	Pass
TC020	R004	Verify Buy Now button.	Open product details page, then click Buy now	Any In-stock product	User should be redirected to the checkout page	High	Pass

Module 5-Shopping Cart:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC021	R005	Add product to cart	Select product, then click Add to cart button	Any product	Product should be added successfully	High	Pass
TC022	R005	Increase product quantity	Change quantity from 1 to 2	Qty = 2	Quantity and total price should update	High	Pass
TC023	R005	Remove product from cart	Click Remove	Existing cart item	Product should be removed from cart	High	Pass
TC024	R005	Verify total amount	Add multiple products	Multiple products	Total amount should be calculated correctly	High	Pass
TC025	R005	Proceed to checkout	Click “Place order”	Products in cart	User should navigate to checkout page	High	Pass

Module 6-Wishlist:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC026	R006	Add product to Wishlist	Login, then search a product, then click the Wishlist (♥) icon	Any available product	Product should be added to the Wishlist successfully	High	Pass
TC027	R006	Remove product from Wishlist	Open Wishlist, then click Remove or ♥ icon again	Existing Wishlist product	Product should be removed from the Wishlist	High	Pass
TC028	R006	View Wishlist items	Login, then open Wishlist page	User with Wishlist items	All saved products should be displayed with image, name and price	Medium	Pass
TC029	R006	Add Wishlist products to cart	Open Wishlist, then click Add to Cart	Product available in Wishlist	Product should be added to the Cart successfully	High	Pass
TC030	R006	Add same product to Wishlist multiple times	Click the Wishlist (♥) icon repeatedly for the same product	Any Product	Product should be added only once. Duplicate entries should not be created	Medium	Pass

Module 7-Checkout:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC031	R007	Proceed to checkout	Login, then Add product to Cart, then Click place order	Any available product	User should be redirected to the checkout page	High	Pass
TC032	R007	Select an existing delivery address	Open checkout, then select a saved address	Existing Address	Selected address should be displayed as the delivery address	High	Pass

TC033	R007	Add a new delivery address	Open checkout, then click Add New Address, then Enter valid address details, then save.	Valid name, mobile no, Address, pin-code	New address should be saved successfully and available for selection	High	Pass
TC034	R007	Verify order summary	Open checkout page	Products added to Cart	Order summary should display the correct product details, quantity, price, delivery charges, and total amount	High	Pass
TC035	R007	Continue to payment	Select delivery address, then click Continue	Valid address	User should be navigated to the payment page	High	Pass

Module 8-Payment:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC036	R008	Verify Cash on Delivery (COD) payment	Proceed to payment, then Select Cash on Delivery, then click Place order	COD	Order should be placed successfully with COD as the payment method	High	Pass
TC037	R008	Verify UPI payment	Proceed to payment, then Select UPI, enter valid UPI ID, then complete payment	testuser@upi	Payment should be successful and the order should be confirmed	High	Pass
TC038	R008	Verify Debit/Credit card payment	Proceed to payment, then Select Card, then enter Valid card details, then complete payment	Valid card number, Expiry Date, CVV	Payment should be processed successfully and the order should be confirmed	High	Pass

TC039	R008	Verify invalid card details	Select Card, then Enter invalid card number or incorrect CVV, then click pay	Invalid Card details	Appropriate validation/error message should be displayed and payment should not proceed	High	Pass
TC040	R008	Verify payment cancellation	Initiate payment, then click Cancel on the payment gateway	Any payment method	Payment should be cancelled and the user should be redirected back to the payment page without placing the order	Medium	Pass

Module 9-Order Placement:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC041	R009	Place an order successfully	Login, then add the product to cart, complete checkout, then Make successful payment, then click Place Order	Valid product, valid address, successful payment	Order should be placed successfully, and an Order ID should be generated	High	Pass
TC042	R009	Verify order confirmation page	Complete a successful order	Valid order	Order confirmation page should display the Order ID, product details, delivery address, payment method and estimated delivery date	High	Pass
TC043	R009	Verify order confirmation email/SMS	Place an order successfully	Registered Email & Mobile Number	User should receive an order confirmation email/SMS	Medium	Pass

TC044	R009	Verify stoke update after order placement	Place an order for an in-stoke product	Available product	Product inventory should be updated after the order is placed	Medium	Pass
TC045	R009	Prevent duplicate order on multiple clicks	Complete payment, then Click Place Order button multiple times quickly	Valid Order	Only one order should be created, and duplicate order should not be generated	High	Pass

Module 10-Order History:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC046	R010	View order history	Login, then Navigate to My Orders	Registered User	All previously placed orders should be displayed in chronological order	High	Pass
TC047	R010	Verify order details	Open My Orders, then click on a specific order	Existing order	Order details such as Order Id, product name, quantity, price, delivery address, payment method, and order status should be displayed correctly	High	Pass
TC048	R010	Verify order status	Open an existing order	Existing order	Current order status (Order confirmed, shipped, out for delivery, delivered etc) should be displayed correctly	High	Pass
TC049	R010	Search or Filter order	Open My Orders, then search by Order ID or apply filters	Valid order Id	Matching order(s) should be displayed based on the search/filter criteria	Medium	Pass

TC050	R010	Download/View invoice	Open an existing order, then click Download invoice	Existing order	Invoice should open or download successfully with the correct order details	Medium	Pass

Module 11-User Profile:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC051	R011	View order history	Login, then Navigate to My Orders	Registered User	All previously placed orders should be displayed in chronological order	High	Pass
TC052	R011	Verify order details	Open My Orders, then click on a specific order	Existing order	Order details such as Order Id, product name, quantity, price, delivery address, payment method, and order status should be displayed correctly	High	Pass
TC053	R011	Verify order status	Open an existing order	Existing order	Current order status (Order confirmed, shipped, out for delivery, delivered etc) should be displayed correctly	High	Pass
TC054	R011	Search or Filter order	Open My Orders, then search by Order ID or apply filters	Valid order Id	Matching order(s) should be displayed based on the search/filter criteria	Medium	Pass
TC055	R011	Download/View invoice	Open an existing order, then click Download invoice	Existing order	Invoice should open or download successfully with the correct order details	Medium	Pass

Module 12-Logout:

TC ID	Req ID	Test Scenario	Test Steps	Test Data	Expected Result	Priority	Status
TC056	R012	Logout successfully	Login, then click profile, click logout	Valid User	User should be logged out successfully and redirected to the login/home page	High	Pass
TC057	R012	Verify session termination after logout	Login, then Logout, press the browser Back button	Logged-out User	User should not be able to access authenticated pages and should be redirected to the login page	High	Pass
TC058	R012	Verify protected page access after logout	Login, then logout enter a protected page URL (e.g., My Orders)	Logged-out User	Access should be denied, and the user should be redirected to the login page	High	Pass
TC059	R012	Verify Cart and Wishlist after re-login	Login, then add items to Cart/Wishlist, then logout, then again login	Registered User	Previously saved Cart and Wishlist items should be displayed correctly (if supported by the application)	Medium	Pass
TC060	R012	Verify multiple logout attempts	Login, then logout, then click the logout URL/button again	Logged-out User	Application should handle the request gracefully by redirecting the user to the login page without errors	Low	Pass
